## Letter from the CEO

Economic outlook for the Nordic region is stable. GDP growth and employment levels are favorable while the expectations for interest increases are muted. Overall the current low interest rate environment in the Nordics is expected to continue while larger economies are increasingly trending towards lower interest rates.

New regulation for unsecured lending in Norway has been implemented and there is increased focus on the sector in both the Nordics and Europe. Regulations to increase customer protection have been implemented in several countries, targeting e.g. marketing, interest levels and loan to income ratios. It is however key to Bank Norwegian to have high quality risk selection and customer protection that goes beyond the concern of the regulatory bodies to ensure our long term sustainable profitability.

Profitable growth is imperative for the bank and we are satisfied to report continued growth in customers and loans while at the same time improving credit quality. The ability to achieve both goals, amid strong competitive pressure and changing regulatory environment, is attributable to our extensive data collection, distribution strength, customer centric products and advanced analytics capabilities.

### **Our 4-pillar strategy**

We are excited to explore the potential for the bank and work from the basis of a 4-pillar strategy.

Core business expansion - Bank Norwegian is well positioned and will seek to increase its market share in the Nordic countries. Advanced risk control and continued favorable macro environment combined with a low market share outside Norway contribute positively toward that goal.

European expansion plan - Bank Norwegian is now in full control over the European expansion, and we will initiate the roll-out in a cautious manner and seek to replicate the benchmark Nordic business model in countries that meet our selection criteria.

EU banking license / domicile - Bank Norwegian is in the exploratory phase with the Central Bank of Ireland and working toward filing an application towards the end of the year.

FinTech agenda - Beyond the PSD2 rollout currently under way there are many opportunities to be explored. Given Bank Norwegian's proprietary data on a large and growing customer base, nimble operating model, deep analytic capabilities and financial strength, we are uniquely positioned in the evolving dynamics between banks and FinTechs.

Bærum, August 13, 2019

**Tine Wollebekk**  
CEO

## Report for the second quarter 2019

Norwegian Finans Holding ASA (NFH) owns 100% of the shares in Bank Norwegian AS and Lilienthal Finance Ltd. The company does not engage in any other operations. The ownership of Norwegian Finans Holding ASA is divided between institutional and private investors in Norway and abroad, of which Norwegian Air Shuttle ASA is the largest owner with a stake of 17.5% at the end of the second quarter 2019. Norwegian Finans Holding ASA is listed on the Oslo Stock Exchange with the ticker code NOFI.

Bank Norwegian started its operations in November 2007 and offers instalment loans, credit cards and deposit accounts to retail customers distributed through the Internet in the Nordic market. Bank Norwegian offers, in cooperation with the airline Norwegian, a combined credit card and reward card. The bank started operations in Sweden in May 2013. In December 2015 the bank launched operations in Denmark and Finland, where it initially offered instalment loans and deposit accounts. Credit cards were launched in June 2016.

Norwegian Finans Holding ASA entered into agreements on May 2, 2019, to acquire all the shares in the Irish company Lilienthal Finance Ltd. and through this company all rights to the Norwegian brand for banking services and access to customers in Europe.

Bank Norwegian is a digital bank that offers simple and competitive products to the retail market. The strategy is based on leading digital solutions, synergies with the airline Norwegian, attractive terms for our customers, cost-effective operations and effective risk selection.

At the end of the second quarter 2019 the NFH Group had a customer base of 1 635 500 customers, which can be broken down into 1 203 200 credit card customers, 200 400 instalment loan customers and 231 900 deposit customers.

### Profit and loss as of June 30, 2019

The NFH Group's comprehensive income amounted to NOK 958.0 million, compared with NOK 893.4 million for the same period in 2018. The profit growth is explained by customer and loan growth.

Net interest income totaled NOK 2 339 million, net other operating income amounted to NOK 145.4 million, while total operating expenses were NOK 655.3 million. Provisions for loan losses were NOK 551.3 million.

### Profit and loss for the second quarter 2019

The NFH Group's comprehensive income amounted to NOK 474.7 million compared with NOK 483.3 million in the first quarter. Return on equity was 24.9%, compared with 27.1% in the first quarter. The return on assets was 3.7%, compared with 3.9% in the first quarter.

Net interest income amounted to NOK 1 179 million, an increase of NOK 18.3 million from the first quarter. The increase is mainly explained by loan growth. The net

interest margin was 9.2%, compared with 9.4% in the first quarter.

Net other operating income amounted to NOK 54.3 million compared with NOK 91.1 million in the first quarter. Net commission income decreased NOK 35.8 million to NOK 56.1 million mainly due to annual network and insurance incentives in the first quarter. Net loss on securities and currency amounted to NOK 1.8 million, compared with a net loss of NOK 0.8 million in the first quarter.

Total operating expenses amounted to NOK 317.4 million, a decrease of NOK 20.6 million in the second quarter. Personnel expenses decreased NOK 5.9 million due to accrual effects. Administrative expenses decreased NOK 16.7 million, reflecting lower digital marketing expenses. Depreciation increased NOK 0.6 million. Other operating expenses increased NOK 1.4 million.

Provisions for loan losses were NOK 282.2 million, an increase of NOK 13.1 million from the first quarter. Provisions equalled 2.8% of average gross loans, compared with 2.7% in the first quarter.

Gross delinquent loans were NOK 5 334 million, compared with NOK 4 606 million at the end of the first quarter. Gross non-performing loans accounted for 10.1% of gross loans, compared with 8.9% as of March 31, 2019. Non-performing loan levels are developing as expected.

### Balance sheet as of June 30, 2019

Total assets increased NOK 678.4 million in the quarter and amounted to NOK 51 623 million.

Gross loans to customers increased NOK 1 080 million compared with NOK 324.5 million in the previous quarter and totaled NOK 40 877 million. Currency adjusted gross loan growth was NOK 1 110 million compared with NOK 1 031 million in the previous quarter. Instalment loans amounted to NOK 28 636 million and credit card loans amounted to NOK 12 241 million.

Customer deposits increased NOK 523.7 million compared with a decrease of NOK 1 438 million in the first quarter and amounted to NOK 38 178 million at the end of the second quarter. The decrease in the first quarter was a result of the deposit guarantee amount reduction from NOK 2 million to EUR 100 thousand outside of Norway as of January 1, 2019.

Liquid assets decreased NOK 425.9 million and amounted to NOK 12 245 million, equivalent to 23.7% of total assets.

The NFH Group bought back shares in Norwegian Finans Holding ASA worth NOK 160 million in the second quarter. NOK 150 million of these was used as consideration to acquire the rights to use the Norwegian brand for banking services and access to customers in Europe. In addition,

NOK 5.3 million was allocated as part of the incentive scheme for key employees.

Total equity amounted to NOK 8 481 million, compared with NOK 8 020 million as of March 31, 2019. The total capital ratio was 23.4%, the core capital ratio was 21.2% and the common equity tier 1 ratio was 19.5%.

The financial statements as of June 30, 2019 have been subject to an auditor review of interim financial statements.

#### Outlook

The outlook for the Nordic economies where the NFH Group operates continues to be favorable with sound growth and stable unemployment.

Interest rate levels in the countries where the NFH Group is represented are expected to rise gradually, albeit from a low level. The NFH Group is still expected to benefit from low interest rate levels through low funding costs.

The earnings growth is expected to continue through loan growth, stable margins, cost control and good credit quality, even though the Nordic market for unsecured credit is very competitive. The competitive environment could lead to higher customer acquisition cost, margin pressure or lower growth.

The effects from new regulations and the implementation of a credit registry in Norway is likely to dampen the pace of loan growth in Norway. The NFH Group has a broad Nordic platform and loan volumes are growing faster outside of Norway. As such, the NFH Group has a diversified risk in relation to the individual markets.

A high deposit to loans ratio and good access to the securities market are expected to maintain the NFH Group's strong liquidity position. The NFH Group plans further issuances of senior unsecured debt during the year to prepare for MREL requirements and for funding diversification.

The investment portfolio has provided a satisfactory return. The portfolio's low risk mandate will remain.

The credit quality of the loan portfolios in all markets are expected to exhibit a stable development going forward. Proprietary credit application and behavior scorecards based on own data are in place in all markets. Credit models and systems are undergoing continuous improvements.

Common equity tier 1 was 19.5% at June 30, exceeding the minimum common equity tier 1 ratio requirement of 15.9% which include announced increases in counter-cyclical buffers during 2019.

The NFH Group plans to distribute capital in excess of applicable capital requirements annually, in the form of share buy backs and cash dividends.

The current capital base and internal generation of capital are considered more than sufficient to ensure the NFH Group's growth ambitions.

The NFH Group has initiated a process to apply for an EU banking license in Ireland in order to give NOFI and Bank Norwegian a more efficient access to expand the business concept with a fully digitalized bank in European markets.

## Notes

### Note 1. General accounting principles

The quarterly financial statements for the Norwegian Finans Holding Group (NFH Group) have been prepared in accordance with IAS 34 Interim Financial Reporting as issued by the International Accounting Standards Board and as adopted by the European Union. When preparing the consolidated financial statements, management makes estimates, judgments and assumptions that affect the application of the accounting principles and the carrying amount of assets, liabilities, income and expenses. Estimates and assumptions are subject to continual evaluation and are based on historical experience and other factors, including expectations of future events that are believed to be probable on the balance sheet date. A description of the accounting policies, significant estimates and areas where judgment is applied by NFH Group, can be found in Note 1 Accounting principles in the annual report for 2018.

#### *IFRS 16 - Leases*

IFRS 16 Leases was effective from January 1, 2019, and replaced IAS 17 Leases. The NFH Group applied the standard as of January 1, 2019. IFRS 16 established significant new accounting requirements for lessees, while the requirements for lessors are more or less unchanged. For lessees, IFRS 16 eliminated the distinction between operating and finance leases as was required by IAS 17, and instead introduced a single lessee accounting model. When applying the new model, the NFH Group have recognised a liability to make lease payments (lease liability) and an asset representing the right to use the underlying asset during the lease term (right-of-use asset). In the income statement, depreciation of the right-of-use assets are recognised separately from interest on lease liabilities.

NFH Group has decided on the following policy choices and practical expedients:

- to apply the low value exception (primarily for office equipment)
- to not recognise non-lease components in the lease liability
- to apply the modified retrospective approach for transition to IFRS 16, meaning that the NFH Group have not restated the comparatives for 2018. Right-of-use assets and lease liabilities was measured at the same amount, taking into consideration prepayments, accruals and provisions recognised as of December 31, 2018.

The right-of-use asset was classified as part of the fixed assets in the balance sheet, while the lease liability was classified as other liabilities. The most significant part of the lease liabilities of NFH Group arises from leases related to head office at Fornebu as well as some IT equipment. The total lease liabilities and right-of-use assets on January 1, 2019 was estimated to NOK 7.3 million for the NFH Group.

## Note 2. Segments

The profit and loss and balance sheet presentation for segments are based on internal financial reporting as it is reported to management. The figures are based on Bank Norwegian's governance model.

## Note 4. Expected credit loss

The NFH Group applies the expected credit loss (ECL) methodology subject to the IFRS 9 rules with three stages of impairment calculation. Stage 1 is not impaired and uses a 12-month ECL calculation. Stage 2 has a significant increase in credit risk since its origination, according to the triggers disclosed below, and uses the lifetime approach to ECL calculation. Stage 3 is impaired with the 90 days past due definition and calculates the ECL based on the lifetime approach.

### Significant increase in credit risk

Probability of default (PD) is an experience-based probability that a commitment is in breach for more than 90 days in the next 12 months. The table below shows the different trigger levels that need to be in place for a commitment to be classified as stage 2 due to a significant increase in credit risk. A significant increase in credit risk is assessed on the basis of several criteria, including late payment beyond 30 days after invoice due date. The most important factor for the assessment is a comparison between the original probability of default and the probability of default at the reporting date. Each product has its own threshold values when one considers an increase to be significant. Products with absolute low application PDs therefore lead to high trigger requirements, as they are relative and come from a low level. An increase of more than 0 % indicates an increase beyond PD at origination.

	PD at Origination	Instalment loans	PD at Origination	Credit card loans
<b>Norway</b>	<=5%	700 %	<=2%	900 %
	>5%, 10%]	30 %	>2%	40 %
	>10%	20 %		
<b>Sweden</b>	<=10%	40 %	<=2%	900 %
	>10%, 20%]	30 %	>2%, 5%]	40 %
	>20%	20 %	>5%	0 %
<b>Denmark</b>	<=20%	300 %	<=50%	80 %
	>20%, 40%]	100 %	>50%	0 %
	>40%	20 %		
<b>Finland</b>	<=20%	200 %	<=30%	200 %
	>20%, 40%]	100 %	>30%	30 %
	>40%	40 %		

### Economic variables used to measure ECL

The NFH Group has chosen to disclose the three most important modelling variables in each individual country. The data is modelled across three scenarios: a base, an upper and a lower case for expected credit loss. The model is based on the NiGEM-model developed by UK's Institute of Economic and Social Research. The following weights have been used across all portfolios per 30.6.2019: 30% - 40% - 30% for base, optimistic and pessimistic scenario for expected credit loss.

	Base scenario		Optimistic scenario		Pessimistic scenario	
	12 months	5 years	12 months	5 years	12 months	5 years
<b>Norway</b>						
3-month interbank rate	2.03 %	2.83 %	1.78 %	2.58 %	2.66 %	3.41 %
Hourly pay in NOK	421	479	426	500	419	467
Real interest rate	-0.05 %	-0.23 %	-0.45 %	-0.63 %	1.13 %	0.50 %
<b>Sweden</b>						
3-month interbank rate	0.59 %	3.14 %	0.15 %	1.94 %	1.13 %	4.79 %
Consumption in millions	178 517	194 071	180 138	197 788	175 748	186 904
Unemployment level in thousands	360	378	319	339	396	419
<b>Denmark</b>						
3-month interbank rate	0.66 %	2.72 %	1.45 %	3.07 %	0.09 %	2.39 %
Consumption in millions	81 205	87 819	83 730	94 948	78 605	81 597
Unemployment percentage	5.29 %	5.18 %	4.27 %	4.90 %	6.44 %	5.47 %
<b>Finland</b>						
3-month interbank rate	0.38 %	2.27 %	0.74 %	2.39 %	-0.18 %	1.80 %
Consumption in millions	9 534	10 050	9 743	10 571	9 332	9 568
Unemployment percentage	6.66 %	6.50 %	4.54 %	5.96 %	8.96 %	7.04 %

### Macro scenario sensitivity on ECL

	Final ECL	Base scenario	Optimistic scenario	Pessimistic scenario
<b>Norway</b>				
Credit card	186 316	187 107	182 785	188 792
Instalment loans	599 689	600 609	595 373	602 780
<b>Sweden</b>				
Credit card	113 165	113 029	112 067	114 445
Instalment loans	334 867	335 056	333 677	335 806
<b>Denmark</b>				
Credit card	95 930	95 923	95 732	96 138
Instalment loans	429 320	429 303	428 230	430 431
<b>Finland</b>				
Credit card	41 886	41 875	41 623	42 164
Instalment loans	313 193	313 144	312 214	314 237

The final ECL is a macro-weighted ECL based on 30% - 40% - 30% weighting given to the base, optimistic and pessimistic scenarios. The outcome can be close to the base scenario if the two scenarios differ by the same magnitude. If one scenario is of higher variability, the final ECL will tend towards that one.

## Note 5. Loans to customers by product groups and change in loan loss allowance

<b>Total</b>		<b>40 877 273</b>	<b>33 591 705</b>	<b>39 531 822</b>	<b>31 526 909</b>

Risk is grouped into PD bands from A to J, with A being the lowest risk. Further classifications are as follows: Risk class S consist of engagements under collections by an agency, where the customer is less than 90 days past due on the original payment plan. If the customer is on track with the engagement, but has at least one other product where the payment is more than 90 days past due on the original payment plan, then it is classified as T. Risk class U consist of engagements that are in warning, but less than 90 days past due on the original payment plan. Risk class V consist of engagements that are more than 90 days past due on the original payment plan. Risk class W consist of engagements that are written down.

In the second quarter 2019, the basis for risk class distribution has been changed to be alligned with the behavior models for ECL-calculations.

Risk class distribution in previous quarters were based on behavior models that were phased out when converting to IFRS 9 and used solely for reporting purposes.

There is no underlying change in the actual risk position. Previous reporting has not been restated.

### Fair value of financial instruments at amortized cost

Financial instruments at amortized cost are valued at originally determined cash flows, adjusted for any impairment losses. Amortized cost will not always give values that match the market's assessment of the same instruments, due to different perceptions of market conditions, risk and return requirements.

#### Debt securities issued and subordinated loan

The fair value of debt securities issued and subordinated loan are based on observable market data where available.

<i>Amounts in NOK 1000</i>	YTD 2019		YTD 2018	
	Book value	Fair value	Book value	Fair value

## Note 14. Related parties

Bank Norwegian AS has since 2007 had an agreement with Norwegian Air Shuttle ASA regarding the use of the brand name Norwegian, IP-rights and cooperation regarding the loyalty program Norwegian Reward. The agreement was renegotiated in the second quarter 2018 and is valid for ten years. In the second quarter 2019 the total expensed amount related to Norwegian Air Shuttle ASA was NOK 98.9 million, comprising of portfolio related costs of NOK 85.1 million and sales and agent commissions of NOK 13.8 million. The portfolio related costs include license fee for use of brand name, IP-rights and other customer portfolio costs, such as cashpoints. Norwegian Finans Holding ASA owns 100% of Bank Norwegian AS.

Norwegian Finans Holding ASA acquired a 100% of the voting rights in Lilienthal Finance Ltd. on May 2, 2019. Lilienthal Finance Ltd. is the European expansion of the NFH Groups business and is subjected to the same conditions with regards to the use of brand name Norwegian, IP-rights and cooperation regarding the loyalty program Norwegian Reward. Lilienthal Finance Ltd. has paid NOK 150 million for the exclusive irrevocable IP-rights and a further NOK 184.5 million in license fees for the next 5 years.

## Note 15. Business combinations

Norwegian Finans Holding ASA acquired a 100% of the voting rights in Lilienthal Finance Ltd. on May 2, 2019. As a result, Lilienthal Finance Ltd. is now a fully owned subsidiary of Norwegian Finans Holding ASA. The purchase is made to give Norwegian Finans Holding ASA the full control of the European expansion of the NFH groups business. The purchase price was set to NOK 40.2 million, all of which is recognised as goodwill.

## Notes for Norwegian Finans Holding ASA

### Note 1. General accounting principles

The quarterly financial statements for Norwegian Finans Holding ASA have been prepared in accordance with IAS 34 Interim Financial Reporting as issued by the International Accounting Standards Board and as adopted by the European Union. When preparing the consolidated financial statements, management makes estimates, judgments and assumptions that affect the application of the accounting principles and the carrying amount of assets, liabilities, income and expenses. Estimates and assumptions are subject to continual evaluation and are based on historical experience and other factors, including expectations of future events that are believed to be probable on the balance sheet date. A description of the accounting policies, significant estimates and areas where judgment is applied, can be found in Note 1 Accounting principles in the annual report for 2018.

The shares held by Norwegian Finans Holding ASA constitutes 100 % of the ownership in Bank Norwegian AS. The shares are recognized at cost, and eliminated in the group accounts.

The shares held by Norwegian Finans Holding ASA constitutes 100 % of the ownership in Lilienthal Finance Ltd. The shares are recognized at cost, and eliminated in the group accounts.

## Note 2. Capital adequacy

Norwegian Finans Holding ASA uses the standardized approach for credit risk and the standardized approach for operational risk to calculate capital adequacy in accordance with current capital adequacy regulations - Basel II.

<b>Total capital</b>	<b>Q2 2019</b>	<b>Q2 2018</b>	<b>2018</b>
